

Product data sheet

Mineral bucket: Maxcare High Protein and Energy

Product code: 13263855

High protein and energy molassed lick bucket for cattle and sheep, suitable for complementing forages from late summer onwards and throughout the winter for optimal health and productivity.

Ideal for

- Cattle and sheep from late summer onwards and throughout the winter. Especially suitable for upland and hill farmed livestock.

Features and benefits

- High protein feed lick, containing natural protein, urea and sulphur, to help complement poorer quality forages from late summer onwards and throughout the winter.
- Includes added **fish oil** as a source of omega-3 fatty acids to help support fertility at tugging time.
- **Highly bioavailable zinc to support animal health and performance;** independent university research has shown IntelliBond Z to have 2.04 times greater relative bioavailability (RBV) when compared to inorganic sources of zinc. Increased bioavailability helps to support fertility, health, hoof integrity where lameness is an issue, and overall performance.
- Contains **Optimin SeY**, a selenium yeast with guaranteed and consistent premium quality, proven to improve antioxidant defences and immunity.
- The **addition of AOmix R**, a blend of specially selected polyphenols, provides the animal with extra antioxidant capacity to support performance during periods of high productive stress.
- Includes a range of minerals, trace elements and vitamins to help balance any potential deficiencies in the basal diet.

Directions for use

- Allow 1 bucket per 5 head of cattle or 20 head of sheep.
- Do not feed to animals under 12 weeks of age.

Typical intake

- Cattle up to 300g/head/day.
- Sheep up to 100g/head/day.

Pack weight

25kg
